23	Ignacio Aranciaga ECOM liason officer	Argentina	
24	Ernest Allen ECOM liason officer	USA	

The Rules Committee is made up of the Chairs of the Technical Committees (TCOMs), Chair of the SST Editorial Board, and Chair of the AOSA Rules Committee. The main responsibility of the Rules Committee is to update and maintain the ISTA Rules.

One of the main tasks is to work with the Publications Unit and the TCOM Coordinator of ISTA to produce the annual Rules proposal document which collates any editorial changes with rules proposals from the Technical Committees. The Committee also decides whether the proposals are technically sound and discusses any issues, especially when proposals affect more than one Technical Committee. The Committee votes on the proposals and makes a recommendation to the Executive Committee for submission of the proposal document for voting by the voting members at the annual meeting.

The Chair of the Rules Committee presents the Rules proposals during the annual voting meetings to the ISTA Membership and the voting members.
