31st ISTA Seed Symposium
Tallinn, Estonia, 15-17 June 2016

Margus Friedenthal

on behalf of
Laura Bowden
Seed Symposium Convenor
Theme

Progress in seed testing and seed quality improvement through science and technology
Session 1: Applications of germination and dormancy testing
Lead Speaker: Fernando Silveira, Federal University of Minas Gerais, Brazil

Session 2: Advances in seed health testing for ensuring quality during seed production and storage
Lead Speaker: Gary Munkvold, Iowa State University, USA

Session 3: Environmental effects on seed quality
Lead Speaker: Ilse Kranner, University of Innsbruck, Austria

Session 4 (ISSS Collaborative Session): Cellular and molecular methods and new approaches to seed quality determination
Lead Speaker: Julia Buitink, INRA, France

Session 5: Conservation and Use of Genetic Resources in Crop, Forest and Wild species
Lead Speaker: Mati Koppel, Estonian Crop Research Institute, Estonia
Poster Sessions

Will cover each of the five session themes.

Papers that cannot be selected for oral presentation will be considered for poster presentation.
Deadlines

Papers can now be submitted online, through the ISTA website

23 Oct 2015  Deadline for submission of all papers.

18 Dec 2015  Authors informed whether papers have been accepted for oral or poster presentation.
Thank you for your attention
